educerts
Secure Digital Academic Certificates

HOW EDUCERTS WORKS

Educerts helps universities and other credential issuing organizations manage their journey from paper documents to digital credentials in an easy manner.

Our world-class infrastructure, proudly Made in India, uses the most advanced technology to secure the issuance and document management process.

At the same time, we strive to meet your requirements from a technology viewpoint -- allowing you to tailor aspects of the platform to your unique requirements.

DIGILOCKER INTEGRATION

- Educerts can assist universities lodge documents in DigiLocker and NAD. The National Academic Repository (NAD) is a Ministry of Education, Government of India, initiative to encourage migration of paper academic records to digital equivalents.

- The Ministry has chosen the DigiLocker platform to host the digital records so students are able to access them along with their other documents (like Aadhar, Drivers License etc).

DigiLocker
Your documents anytime, anywhere

Digital India
Power To Empower

DIGILOCKER INTEGRATION

■ Educerts can provide DigiLocker integration to our university partners. Our technology can be used to digitize documents, secure them and upload into DigiLocker. Students can then retrieve these documents from DigiLocker

VALUE TO UNIVERSITIES

1 SECURITY

Educerts is a world-class platform, Made in India, for securing and issuing digital academic credentials. Using state-of-the art cryptography solutions, cloud computing and blockchain we ensure tamper-proof documents. Encryption also ensures data confidentiality and integrity.

2 COMPLIANCE

We provide compliance to the Ministry of Education directive to universities to move to a digital academic documents format and use the DigiLocker platform. We provide integration to DigiLocker and all data is stored and processed in India.

3 CUSTOMIZED SOLUTION

Universities have the option to either issue on premise or using the cloud. We also allow documents to be shared to other wallets or ledges. Our platform is customizable to your requirements.

4 EASE OF USE

Our platform was designed by a team with more than a decade of experience in digital document management. Our domain expertise has helped remove any complexity from the document issuing and management process. In simply three clicks, documents can be issued and uploaded.
